Welcome to Crossware

We are an IT services and consulting organisation, specialising in collaborative software solutions.

From our base in New Zealand, we've developed a team of highly skilled and certified IBM professionals looking after our customers locally, throughout Australasia, and around the world.

With a worldwide client list of more than 200 companies - with more than 200,000 users - we have built a loyal customer base that enables us to keep improving our solutions.

A history of innovation

Originally established in Denmark in 1992, Crossware has been operating in New Zealand since 1999.

We have extensive experience with clients in almost every sector - from banking and finance to insurance, manufacturing to shipping, retail to legal and construction - all the way to farming.

Our depth of experience and the quality of our award-winning work have seen us become the largest, most experienced IBM Lotus Software focussed organisation in New Zealand.

A locally owned and managed company, Crossware has developed a business model that suits both the New Zealand and overseas markets. Wherever our clients come from, our engagement model helps understand where they are heading, maximising the value we deliver.

What makes Crossware different?

Our culture. Everyone at Crossware thinks "outside the inbox". We quickly and collaboratively solve problems - and apply the power of over 17 years of experience to deliver the best in collaborative solutions; with a focus on the following products:
